Have you previously received funding for international studies through the CVM? No Yes

If yes, please list the program(s) and amount funded. How did you communicate your experiences to other students and faculty following your trip(s)?

List any other international educational experiences that you have participated in during your undergraduate work or during your DVM program:

What special public health or communicable disease precautions need to be made prior to and following participation in this experience? *Please provide specific information for the country, which can be obtained from the Centers for Disease Control and Prevention* (<https://wwwnc.cdc.gov/travel/destinations/list>)

What special transboundary/foreign animal disease precautions need to be made prior to and following participation in this experience? *Please provide specific animal health and zoonotic disease information for the country, which can be obtained from the World Organization for Animal Health* (<https://wahis.woah.org/#/dashboards/control-measure-dashboard>)

What are your educational goals of this international experience? Include how this program furthers your understanding of international issues in veterinary medicine such as global public health, trans-boundary animal diseases, food security, etc. Please limit your response to 400 words or less.

As a requirement for funding, all students receiving awards are required to communicate their experience to other students, faculty, and/or other veterinary organizations. Briefly describe how you intend to fulfill this obligation (presentation, poster, article, blog, or other method).

By signing below, I declare that I am a student of good moral character without history of disciplinary probation. I agree that, if funded, all monies will be used to further my education in international veterinary medicine.
